Fibers designed
by Nature

The Added Value Product Range for Modified Asphalt Mixtures

VIATOP® plus C 25 is a pelletized blend of:
 75 % by weight Cellulose Fibers **ARBOCEL® ZZ 8/1**
 25 % by weight Fischer-Tropsch-Wax

Recommended dosage:
 0.4 % by weight

Problem	Solution
High compaction resistance	VIATOP® plus C 25 reduces compaction resistance to get an easier and effective compaction
Difficult application conditions	VIATOP® plus C 25 improves application behaviour, especially in case of manual works
Need for long-term and high quantity orders for low viscous bitumen	VIATOP® plus C 25 offers high flexibility due to short time availability and individual packaging sizes VIATOP® plus C 25 fiber pellets provide a high storage life and there is no need of an additional bitumen tank
